Backcountry Ski Touring Intro to Backcountry Ski

At Ski Pro we are proud to offer ultimate backcountry skiing and boarding experiences for backcountry enthusiasts based on traditional hand made Kyrgyz Yurt. The Ski Pro yurt lies deep in Terskei backcountry and located at 2350 metres above sea level, providing immediate access to some of Kyrgyzstan's best powder skiing which ranges from mellow glades to steep wide open bowls or forested valleys and has an access to surrounding peaks of 3700 metres.

New to Backcountry Skiing and Alpine Touring? Join our "Intro To Backcountry ski" course to get you away from the lifts and crowd. Whether you plan to ski untracked backcountry terrain or to experience the beauty of alpine ski touring, this 7 day course will introduce you to one of the fastest growing winter activities in the world. It is perfect for alpine skiers who want to learn more about backcountry skiing using alpine touring bindings or adapters.

Ski Mountaineering

We have made Ala Archa national park a playground for this week long adventure. We will take you to our secret playgrounds you won't read about in a guide book. There is no rigid plan about this adventure, we see the peak, we climb it, we ski it! That's how it works at Ski Pro. Nothing is impossible. Please note our ski mountaineering expeditions are based on tents or huts so previous winter camping experience is advisable but not essential. Some areas require longer approaches on skis or foot.

Ski Traverses

Kyrgyzstan has a lot to offer to backcountry skier and rider. A variety of terrain and elevations is just overwhelming. At this moment we offer tent based ski traverses and expeditions in various parts of Kyrgyz Tien Shan mountains on demand. Due to the customizable options of these trip itineraries, we're unable to provide a set price. Once your options are determined however, we'll provide the price right away.
